I'm at Thoko's after a night at Holiday Inn! There is great sadness & tension at Lobamba, & there are thousands of people coming + going but almost no Doing. Only public exhibition outside the village groups of people praying. Indlovukati not yet able to accept the fact; she is intelligent but unstained + terribly afraid & depressed. The queens are cloistered in the sigodlo, prohibited from going outside or doing anything but weep, sleep & eat! Their hair is tendoney & they are waiting, brooding, for the final decisions... There are the wildest rumours about the fate of Newindlovukati. In the meantime there will be a Regency.

Spurs, under Indian Kings's chairmanship. I said 'yes' with regret to leave from Indian. S. is able to make decisions, it is more difficult to carry them out. He was actionary with dresses - kikoi, shirt, tailored, broad tie of dark blue, & handsome, not foppish, in appearance, & obviously realises responsibilities.

Down to Sc. - who inspected me on Tuesday. My room was in disorder; she was embarrassed but warm. I suggested returning after 3 p.m. & she was much pleased. I had many things to do in Khartoum, & while was shopping (Thursday morning) & left a message for M. E. Spurr, CRS to say that I was. Back came W.M. & his story of his struggle as people of unscrupulous greed, & of his loss to old Limerick people of Bishop Lucas - his friend & hero in search of 'social justice'. How many who influenced history! Charlie 'Lucas' came of this Sudan decade. in a ~~motorway~~ car stopped at a cross road by another driver doing ~~stopping~~ at 150 m.p.h! - romance & mystery.

I still feel a little strange to my signature should add to its valuation the recipient is not a friend.

Whilst waiting, Gertrude came in & welcomed me warmly & she was busy in a long interview in setting me down in his office & having tea brought in. He asked me to help with his social column activities for Limerick

What a complex day! I was supposed to go to Entrijeni to see Lynda Haseko (Velakazi) at Entrijeni, the bush neglised + that time was too much to do. So I planned from the flat of a Chinese family at Litabe. The usual plan, a contact negotiated w. much pawsing by our Sri Lankan neighbour at No 2 Lit. Finally got hold of Mishi (private words 'plan to see police at Nkhata' + send any message via him.

Had just settled down to pack my things for Senga when Victor Mkhonta (from Deputy General, + Sec. (the Commission to investigate corruption) arrived. I had forgotten that he had said he would come, tho I had specifically asked him! It was an extraordinary + distressing interview - revealing of a degree of corruption that I had not anticipated. Mk. is, as I remembered from an earlier interview, a man of integrity + strong principles, he told me, recruited from his training among the Chinese police. It gave him a respect for law + order; the topics most of the interview - parts were too confidential even for confidential typing, + I promised not to use his name in any publication. It is clear he has Sokoya's confidence + he has been unable to pursue his investigations - the development of his fears of

R.V. - introduced to her P.w.a B. of Hlobisa Village

Her H; like other N.B pupils (mentally Limited) a problem + not prepared to stay w/ S. When pregnant by V.C. (most dull) was at Hlobisa; just both to town, St town clinic, 2nd (Theo.) a week - + not wanting of clergy Hlobisa the Vicar to Dr Hynd (not thinking it abt Xmas) Hynds took it up, - but not to have an abortion - gave it to Sister Joyce Davis - who eventually adopted it; Left her some money, + an electric bed, when I. Sister made, Dr Hynd gave her her name 'Joyce'. Joyce the boss not a clever but a motherly sort. If she learnt something it stuck, so they must have coupled to teach her it.

Tobani w/d come to see them - remembered seeing the first

LIST OF SPECIFIC IRREGULARITIES -- REEL SIX

FILM SEQUENCE NUMBERING	NOTES:
70	Loose leaf pamphlet.

NOTES:

This collection of Professor Hilda Kuper's field notes was selected for filming by the author. The notebooks have been arranged in chronological order where possible. Most of the notebooks have been numbered by the author; they represent several series and have varied numberings. For ease of identification in the use of this microfilm, a single numerical sequence has been applied to the collection of notebooks (Film Sequence Numbering). Unless specified, all references to notebook numbers refer to Film Sequence Numbering.

Several notebooks include indexes. Some also have separate indexes on cards provided by the author. Both indexes have been filmed, the card index preceding the text of the corresponding notebook.

There are some index cards for which there are no corresponding notebooks. These cards have been filmed with an indication that no notebook will follow.

There is also a general subject index that covers a group of selected notebooks dated 1931 thru 1941. Some notebooks in the time period were omitted from the subject index. Entries show author's numbering for the notebooks. A table converting the author's notebook numbers to Film Sequence Numbering precedes the subject index.

Some of the notebooks have text beginning at both the front and rear covers and working inwards towards the center. Text beginning at the front cover is designated the A side; text written in the other direction is called the B side. Whenever A and B texts intersect, the relevant pages are filmed in their appropriate positions in each sequence.

Blank leaves between the texts of the A and B sides of notebooks are treated as belonging to side A.

Pagination within notebooks is inconsistent. In some cases, it is unclear whether a leaf is missing or whether a number has been omitted from the pagination. Some notebooks are not paginated.

Many notebooks contain discolored, stained or torn leaves. There are faint illegible traces of writing on the covers of some notebooks. The text of these covers has been noted on a target where legible. Part of the text is in blue, black or red ink, while part is in pencil. Some pages contain text in both ink and pencil. The filmers have tried to preserve the legibility of the notebooks as best possible.
